For additional information, please consult [www.RealStoneVeneer.com](http://www.RealStoneVeneer.com)

- Products as listed are sold nationally by Rolling Rock Building Stone, Inc. and its authorized resellers under the brand name RealStone Veneer™. All items marked with the ™ symbol are trademarks and the Rolling Rock Building Stone, Inc. logo is a registered trademark of Rolling Rock Building Stone, Inc.
- RealStone Veneer™ is a natural stone product. It is provided to you "AS IS" without warranty of any kind, either express or implied, including, but not limited to the implied warranties of merchantability or fitness for a particular purpose. Domestic raw materials are featured. Imported raw materials may be present in some products.
- Natural Stone is a relatively hard, naturally formed mineral or petrified matter, produced in nature. Therefore, considerable variations including, but not limited to, color, texture, size, and cleft will occur in all natural stone. Samples, sample panels, brochures, photographs, computer-generated pictures, and items viewed on the Internet may be, in some measure, different from the stone you actually receive. Laboratory tests, if conducted, are performed on small samples and cannot be totally accurate because of the limited scale of the tests. Please be sure that all parties involved are aware of these facts, so an informed decision can be made regarding natural stone.
- The recommended installation procedure for RealStone Veneer™ is Laticrete® MVIS as it is defined on their website [www.laticrete.com/mvis](http://www.laticrete.com/mvis) and is published in their literature. Laticrete® also offers a limited warranty that applies to both the system and the installed stone product. This limited warranty applies only when Laticrete® specifications and products are implemented. Contact Laticrete® directly by using their website for more information. Rolling Rock Building Stone, Inc. does not manufacture this system, but has endorsed Laticrete® MVIS as the recommended installation system for all of its adhered veneer brands.
- When possible, choose an installing contractor that fits your desired application, rather than one that fits your budget. For a detailed explanation, contact your local RealStone Veneer™ representative.
- User accepts all responsibly if a 'dry stack' application is performed on any exterior project.
- Use of Chemicals: Acid or chemical cleaners are not recommended because of the inability of the user to control its use. User accepts all risks.
